Examples of stakeholder analysis for systems thinking applications are provided by Elias et al., 2002, and Cavana, 2004.) This step requires that we clearly establish the objectives, taking into account multiple stakeholders and perspectives. This step is most effective when performed in consultation with other stakeholders in a manner that encourages openness to new ideas and generates ...

The professional approach to systems design was not widespread at this time (Visscher, 1996a). In the 1990s, the emphasis on using ICT to collect educational data and to improve the administration of educational systems began to increase in the developing countries. Visscher (1996b) believes that MIS can provide administrators and teachers with the information required for informed planning ...
